

The following public domain list of illegal drug labs (methlabs), is from the US Department of Justice as of August 2012. The list is only a partial list and exclusion of an address from this list does not indicate the property is not a methlab.

Although several of the addresses listed below may have a "clearance letter" or other invalid "testing documents," only a very small portion (less than one percent) of the following addresses have been remediated and cleared according to Colorado Regulations.

That is, the possession of a document indicating that the property was "tested" is not sufficient under 6 CCR 1014-3, and the property would still remain an illegal drug laboratory under statutory definition (e.g. 2283 S Fox Street, Denver; 2002 Graves Court, Northglenn, and several others).
